Insulated 74 Series

The Premier Safety Padlock

74 Series safety padlocks are designed for lockout/tagout applications and help keep equipment and employees safe from hazardous areas. This lightweight, non-magnetic, and dielectric padlock meets OSHA lockout regulations and is well suited for harsh industrial environments.

Specifications

Key Features

- 6-pin cylinder offers maximum number of key differs and is key-retaining
- Comes with 1 key per lock
- Plastic-covered lock body and shackle are non-magnetic and dielectric, providing intrinsically safe protection
- Under the plastic casing, the NANO PROTECT™-coated steel shackle and aluminum or brass lock body are robust and chemical resistant
- **NEW!** All brass lock body available (74M) for extreme corrosion resistance
- Aluminum locks contain 70% recycled materials. All 74 series locks are produced in a facility achieving zero waste to landfill operations at a 98% diversion rate
- Ships with LOTO labels in English, Spanish and French
- Meets OSHA Lockout/Tagout Guidelines
